◆ Professional Summary

A creative and motivated Frontend Developer with 1.5+ years of hands-on experience building interactive, scalable web applications using Next.js, TypeScript, and Sanity CMS. Passionate about clean code, UI/UX design, and crafting performance-driven solutions. Currently exploring Python and preparing for Agentic AI under GIAIC's advanced curriculum.

💻 Core Skills

✓ Frontend: Next.js (TypeScript), React
✓ Styling: Tailwind CSS, Custom CSS, HTML
✓ CMS & Tools: Sanity CMS, Streamlit, Clerk
✓ Deployment: Vercel, Netlify
✓ Design & Testing: Figma, Postman
✓ Version Control: Git, GitHub

💼 Experience

Frontend Developer | 1.5 Years
Worked across multiple dynamic frontend projects with modern stacks and UI/UX principles. Specialized in building responsive, SEO-optimized, and scalable apps.

🚀 Highlighted Projects

📌 Portfolio Website:
• Built with Next.js and Tailwind CSS.
• Mobile-first design, SSR/SSG, and SEO-optimized.

📌 E-Commerce Platform:
• Developed using Streamlit and Sanity CMS.
• Integrated product listings, orders, and payment flow.

📌 Blog Website:
• Created real-time dynamic blog using Sanity and Next.js.
• Features include search, filters, pagination.

📌 Admin Dashboard:
• Developed using Next.js.
• Included real-time charts, graphs, and admin tools.
